### **My Dream Job**

I want to be a doctor when I grow up because it is a meaningful job. I want to be a doctor because I am gentle and kind. I enjoy helping people in need. If I become a doctor, I will cure sick people.

Doctors need to be patient so that they can help people and identify their illnesses. They also need to be nice so that they can communicate with sick people effectively.

I am going to study hard so that my dream can come true. Furthermore, I am going to read more books in order to gain more about medical knowledge.

I hope I can be a doctor some day. Maybe you will see me working in the clinic in the future.
